JOURNAL OF HIGHER EDUCATION OUTREACH AND ENGAGEMENT

This Issue...

This anniversary issue of *Journal of Higher Education Outreach and Engagement* is comprised of those articles from the past 20 years of publication that were ranked as “most important and/or having the greatest impact on the field” through an independently conducted Delphi survey of the *JHEOE*’s 37 member editorial board. The result is this collection of 11 articles published from 1996 to 2012. The issue starts with an article that analyzes the articles chosen. The featured reprinted articles are then presented chronologically. Each is followed by a commentary, update, or response from the article’s original author(s) or by noted scholars.

For this 20th anniversary issue of the *Journal of Higher Education Outreach and Engagement*, 11 articles were selected through a Delphi survey of editorial board members. A review of these articles reflects the evolution of the field of outreach and community engagement and maturation of the “scholarship of engagement.” In particular, the 3 major shifts can be noted: a shift in terminology, a shift from program institutionalization to institutional transformation, and a shift from simple lists and practices to more integrated and complex frameworks and modeling. The review reveals that such journals play an important role in archiving and documenting as well as stimulating and advancing theory, practice, and policy related to higher education community engagement and scholarship.
